

CHATHAM-KENT LAMBTON ADMINISTRATIVE SCHOOL SERVICES

Procedure:	Vehicle Load Capacity
Reference:	STS-PR-004-2010
Adopted:	April 26, 2011
Revised:	

Vehicle Load Capacity

The manufacturer maximum capacity of a standard school bus is 72 passengers. However, Student Transportation Services recognizes the concerns associated with loading buses to maximum capacity. As a result, Student Transportation Services applies the following guidelines:

- Grades K-6: 3 students to a seat.
- Grades 7-12: 2 students to a seat.

Based on these guidelines, planned rider capacities for a standard bus should not exceed:

- Grades K-8: 60 students.
- Grades K-12: 54 students.
- Grades 9-12: 48 students.

Standees or sitting on the floor will not be permitted under any circumstance.
